Education

National University of Computer and Emerging Sciences (FAST-NUCES) 2023 – Present
B.S. Computer Science | CGPA: 3.78/4.00 *Lahore, Pakistan*

Forman Christian College 2021 – 2023
Pre-Engineering | 924/1100 *Lahore, Pakistan*

Technical Skills

Languages: C/C++, JavaScript, Python, SQL

AI/ML: LLMs, RAG, NLP, Semantic Embeddings, Scikit-learn, Librosa, OpenSMILE, TensorFlow

Web: MERN (MongoDB, Express.js, React, Node.js), Next.js, Tailwind CSS

APIs & Tools: Groq API (LLaMA 3), Tavily API, OpenAI API, Whisper API, Git, VS Code

Projects

SmartInterview | *React, Node.js, RAG, Whisper API, Librosa, OpenSMILE*

- Built a resume-driven interview prep platform using RAG to generate context-aware questions from a curated dataset, evaluated via cosine similarity on semantic embeddings.
- Developed a confidence classification model using an AdaBoost/Logistic Regression/Random Forest ensemble trained on prosodic and spectral audio features extracted via Librosa and OpenSMILE.

Opportunity Inbox Copilot | *Next.js, Groq (LLaMA 3), Tavily API | Softec '26*

- Built an LLM-powered email analysis agent that detects student opportunities, extracts structured details, and ranks them by urgency and profile relevance, delivered end-to-end in 6 hours.
- Implemented ranking pipeline using deadline parsing, profile matching, and completeness scoring with real-time discovery via Tavily web search API.

Couples Marquee – Booking & Management System | *MongoDB, Express.js, React, Node.js*

- Developing a full-stack venue booking platform for a business client, following a complete SDLC; architected separate customer-facing and admin portals with RESTful APIs, role-based access control, and real-time availability tracking.
- Conducted requirements elicitation with a non-technical client, translating business needs into technical specs and validating design decisions through interactive prototypes.

Experience

Software Engineering Intern June 2025 – Present
Folio3 Software *Lahore, Pakistan*

- Participating in a structured 9-week, workshop-based program; building a capstone project end-to-end in a professional software engineering environment.

Programming Instructor June 2024 – July 2024
The Punjab School *Lahore, Pakistan*

- Designed and delivered a Programming Fundamentals curriculum (C++) for grades 5–9, adapting to diverse learning levels.

Achievements

Dean's List of Honors 2023 – Present
FAST-NUCES *Lahore, Pakistan*

- Awarded Dean's List of Honors for 5 consecutive semesters, maintaining a CGPA of 3.78/4.00.

Leadership & Activities

Director of Teaching 2024 – Present
Kirnaain (NGO) *Lahore, Pakistan*

- Deliver values-based lectures to orphans across multiple orphanages and lead volunteer instructors, overseeing curriculum design for community education programs.

Assistant Vice President 2024 – Present
Character Building Society, FAST-NUCES *Lahore, Pakistan*

- Organize campus-wide student development events, deliver opening remarks, introduce guest speakers, and coordinate with university administration and external partners.
